

Cavehouse Brewery

Tenant Discovery Report

 Generated: March 03, 2026 5:48 PM  Data Source: In-memory hashtable  Data Freshness: Current session

Findings of Note

 2 Critical

 10 Warnings

 6 Info

At Capacity

Fully allocated - no licenses available for new users

License 'MCOPSTN1' has 0 remaining (fully allocated)

License 'POWERAPPS_PER_USER' has 0 remaining (fully allocated)

License 'MCOCAP' has 0 remaining (fully allocated)

License 'Office 365 E3' has 0 remaining (fully allocated)

License 'SPE_E5' has 0 remaining (fully allocated)

Cross-Tenant Access

Cross-tenant access partners configured: 3

Device Compliance

Device compliance is only 0% (target: 80%)

DNS Configuration

Domain 'lvhndemo.cavehousebrewing.com' MX record does not point to Microsoft 365

Domain 'lab.com' MX record does not point to Microsoft 365

Domain 'jeffersondemo.cavehousebrewing.com' MX record does not point to Microsoft 365

Domain Verification

Domain 'lab.com' is not verified

Exchange Hybrid

Partial hybrid indicators detected without full configuration (review mail flow connectors and org settings)

External Identities

B2B management policy not found; external identity settings may be default/unconfigured

Federation/Relationship

Exchange federation relationships detected (OrgRel: 1, IOC: 0)

Inactive Mailboxes

14 inactive mailboxes are consuming storage (not counted in license utilization)

Large OneDrive Sites

5 OneDrive sites exceed 1024 GB

Large SharePoint Sites

108 SharePoint sites exceed 1024 GB

Stale Devices

32 devices (78%) are stale (inactive > 6 months)

Tenant Overview

SIGN-ON PROVIDER

Entra ID (cloud)

DIRSYNC ENABLED

Yes

MFA

Enabled

CONDITIONAL ACCESS

Yes (10 policies)

Topic	Answer	Notes
Sign-on provider	Entra ID (cloud)	No federated domains detected
Directory sync from on-prem AD	Yes	Last sync: 11/02/2023 00:14:29
SSPR / Password writeback	Not collected	Not collected in this report
MFA provider	Entra ID MFA (microsoftAuthenticatorAuthenticationMethodConfiguration, smsAuthenticationMethodConfiguration, softwareOathAuthenticationMethodConfiguration, voiceAuthenticationMethodConfiguration, emailAuthenticationMethodConfiguration)	Methods: microsoftAuthenticatorAuthenticationMethodConfiguration, smsAuthenticationMethodConfiguration, softwareOathAuthenticationMethodConfiguration, voiceAuthenticationMethodConfiguration, emailAuthenticationMethodConfiguration

Topic	Answer	Notes
Enterprise SSO to SaaS apps	No	No SSO apps detected
Conditional Access	System.Object[]	Policies detected in tenant
Entra App Proxy	Not collected	Not collected in this report
Entra Private Access	Not collected	Not collected in this report
Privileged Identity Management (PIM)	Not collected	Not collected in this report

Notes

This section is intended for Solutions Architect review. Items marked "Not collected" require manual validation.

License Overview

TOTAL LICENSES

67

Paid licenses only

CONSUMED

30

AVAILABLE

37

UTILIZATION

44.8%

 **WARNING: 5 license(s) at 0 remaining** - Fully allocated, no licenses available for new users
See [Findings of Note](#) for details.

License Type	Applies To	Purchased	Consumed	Remaining	Utilization %
SPE_E5	User	11	11	N/A	100
MCOPSTN1	User	1	1	N/A	100
POWERAPPS_PER_USER	User	1	1	N/A	100
MCOCAP	User	1	1	N/A	100
Office 365 E3	User	1	1	N/A	100
Microsoft_365_Copilot	User	6	5	1	83.3
EXCHANGEENTERPRISE	User	3	N/A	3	N/A

License Type	Applies To	Purchased	Consumed	Remaining	Utilization %
Microsoft_365_Business_Premium_(no Teams)	User	12	4	8	33.3
Microsoft_Teams_Enterprise_New	User	15	4	11	26.7
Power BI Premium Per User	User	16	2	14	12.5

 **Note:** 4 trial, viral, or free licenses exist but are **excluded from this table and calculations**.

What This Means

License inventory for **paid licenses only**. Severity levels:

- **Critical (red):** Over capacity - consuming more than purchased (negative remaining)
-  **Warning (orange):** At capacity - 0 remaining, no licenses for new users
-  **Warning (orange):** High utilization - >85% used but some available

Recommended Next Steps

Critical: Purchase additional licenses IMMEDIATELY - you're over allocated.
At 0 Remaining: Purchase licenses soon - next user assignment will fail.
High Utilization: Plan purchases for next month.

Domain Details

lab.com	N/A	N/A	N/A
jeffersondemo.cavehousebrewing.com	N/A	N/A	N/A
cavehousebrewing.com	58	252	310

What This Means

This shows all domains in your tenant, their verification status, DNS configuration, and how many recipients use each domain.

Recommended Next Steps

Ensure all domains are verified. Confirm MX records point to Microsoft for mail delivery. Review unused domains for removal.

Recipient Objects

Recipient Type	Quantity
SharedMailbox	261
GroupMailbox	34
UserMailbox	22
MailUniversalDistributionGroup	1
MailUniversalSecurityGroup	1
SchedulingMailbox	1

What This Means

This shows the distribution of all mail-enabled recipient objects in your tenant, including mailboxes, groups, contacts, and resources.

Identity & Admins

TOTAL USERS

383

MEMBERS (INTERNAL)

372

GUESTS

5

EXTERNAL/B2B

11

GROUPS

147

ADMINS

27

User Type Summary

Category	Count
Members (Internal)	372

Category	Count
Guests	5
Members (External)	6

Group Overview

Category	Count
Total groups	147
Dynamic groups	12
Dynamic distribution groups (mail enabled)	N/A
M365 groups	34
Security groups	113
Cloud groups	96
On-premises groups	51

Admin Roles Summary

Role	Admins
Global Administrator	23
Exchange Administrator	4
SharePoint Administrator	4
Global Reader	4
User Administrator	3
Helpdesk Administrator	3
Teams Administrator	3
Service Support Administrator	3
Power Platform Administrator	1
Directory Synchronization Accounts	1
Fabric Administrator	1
Windows 365 Administrator	1
Billing Administrator	1

What This Means

This section summarizes user types, external/B2B presence, group inventory, and admin role coverage.

Recommended Next Steps

Review guest and external users for necessity. Ensure admin roles follow least privilege and are distributed appropriately.

Mailbox Overview

TOTAL MAILBOXES

298

TOTAL STORAGE

0 GB

TOTAL ARCHIVE STORAGE

0 GB

AVERAGE SIZE

0 GB

OVER 50 GB

N/A

INACTIVE MAILBOXES

14

INACTIVE STORAGE

0 GB

PUBLIC FOLDERS

2

MAIL-ENABLED PUBLIC FOLDERS

N/A

Mailbox Type	Count	Total Size (GB)	Total Archive (GB)	Avg Size (GB)	Avg Archive (GB)	Over 50 GB	Largest (GB)
SharedMailbox	266	N/A	N/A	N/A	N/A	N/A	N/A
UserMailbox	31	N/A	N/A	N/A	N/A	N/A	N/A
SchedulingMailbox	1	N/A	N/A	N/A	N/A	N/A	N/A

Inactive Mailboxes Summary

Type	Count	Total Size (GB)	Avg Size (GB)	Over 50 GB
SharedMailbox	5	N/A	N/A	N/A
UserMailbox	9	N/A	N/A	N/A

Public Folders

Total Public Folders	Mail-Enabled	With Subfolders
2	N/A	N/A

What This Means

This shows mailbox distribution, archive usage, and inactive mailbox storage. Mailboxes over 50 GB may experience performance issues and should be archived or cleaned.

Recommended Next Steps

Enable archive mailboxes for users over 50 GB. Review retention policies. Consider implementing auto-expanding archives for heavy users.

Inactive Mailboxes

 Inactive Mailboxes Detected

You have 14 inactive mailboxes. These do not consume licenses but do use storage. Consider if they need to be retained for compliance.

Type	Count	Total Size (GB)	Avg Size (GB)	Over 50 GB
SharedMailbox	5	N/A	N/A	N/A
UserMailbox	9	N/A	N/A	N/A

What This Means

Inactive mailboxes are former user mailboxes that have been preserved for compliance. They consume storage but not licenses.

Recommended Next Steps

Review retention requirements. If mailboxes are no longer needed for legal hold or eDiscovery, consider permanent deletion to free storage.

SharePoint & OneDrive

TOTAL SITES

139

TOTAL STORAGE

2877.6 TB

AVERAGE SIZE

20.7 TB

Site Type	Count	Total (GB)	Avg (GB)	Over 1 TB	Largest (GB)
SharePoint Sites	108	2655914.7	24591.8	108	711201.81
OneDrive Sites	31	290748.2	9378.97	5	234902.9

What This Means

This shows storage consumption across SharePoint, OneDrive, and Teams. Sites over 1 TB may have performance impacts.

Recommended Next Steps

Review large sites for archived content that can be moved to cold storage. Implement retention policies and educate users on storage best practices.

Device Overview

TOTAL DEVICES

41

MDM MANAGED

22.0%

COMPLIANT

N/A%

Operating System	Count	% of All	% Stale	% Managed	% Compliant
Windows	39	95.1	79.5	23.1	N/A
iOS	2	4.9	50	N/A	N/A

Top 5 OS Versions

Windows

Version	Count
N/A	4
10.0.17763.1999	3
10.0.18363.1916	3
10.0.19043.928	3
10.0.19043.2130	2

iOS

Version	Count
16.0.2	1
26.2.1	1

What This Means

This shows your device inventory, management status, and compliance. Stale devices (inactive > 6 months) should be reviewed for removal.

Recommended Next Steps

Enroll unmanaged devices in Intune. Investigate non-compliant devices. Remove or disable stale devices to reduce security risk.

AD Connect / Sync

DIRSYNC ENABLED

Yes

LAST SYNC

11/2/2023 12:14:29 AM

SYNC ERRORS

N/A

What This Means

AD Connect/Sync status indicates whether on-prem directory synchronization is active and healthy.

Recommended Next Steps

Review sync errors and verify the AD Connect server is healthy. Confirm last sync is recent.

Conditional Access & MFA

CA POLICIES

10

ENABLED

4

REPORT-ONLY

N/A

MFA ENFORCED

Yes

Conditional Access & MFA Summary

Metric	Value
MFA CA Policies Enabled	47
MFA Methods (Policy)	microsoftAuthenticatorAuthenticationMethodConfiguration, smsAuthenticationMethodConfiguration, softwareOathAuthenticationMethodConfiguration, voiceAuthenticationMethodConfiguration, emailAuthenticationMethodConfiguration
Passwordless Methods	microsoftAuthenticatorAuthenticationMethodConfiguration
% Users Not Covered by CA	0%
% Users Not Enforced with MFA	Unknown

Metric	Value
MFA Registered Users	33
MFA Not Registered Users	75
MFA Registration %	30.6%

Registered MFA Methods

Method	Count
softwareOneTimePasscode	26
microsoftAuthenticatorPush	25
mobilePhone	22
windowsHelloForBusiness	3
microsoftAuthenticatorPasswordless	1

What This Means

This summarizes conditional access policies and MFA enforcement signals. Per-user registration/enforcement data is not collected in this report.

Recommended Next Steps

Ensure MFA is enforced for all users via Conditional Access, review report-only policies, and validate registration methods in your authentication policy.

Exchange Hybrid

Partial Hybrid Indicators

Some hybrid indicators were found, but a full hybrid configuration could not be confirmed.

HYBRID STATUS

Possible Hybrid

HYBRID TYPE

Mail Flow (Single On-Premises connector)

EVIDENCE SIGNALS

3

ON-PREM CONNECTORS

1

Signal	Count
IntraOrg Connectors	N/A
Organization Relationships	1
Inbound On-Prem Connectors	1
Outbound On-Prem Connectors	N/A
Migration Endpoints	N/A
Mail Flow On-Prem Connectors	1

Evidence

- OrganizationRelationship configured (1)
- Inbound OnPremises connector(s) (1)
- Mail flow On-Premises connector(s) (1)

Exchange Federation

Setting	Value
Organization Relationships	A-A-RON
IntraOrg Connectors	N/A

What This Means

Hybrid indicators show whether Exchange Online is integrated with an on-premises Exchange environment for mail flow, free/busy, or migrations.

Recommended Next Steps

If hybrid is detected, validate hybrid configuration in the Exchange admin center and confirm connectors align with your intended mail routing. If partial indicators exist, review connectors and organization relationships for stale or incomplete setup.

Cross-Tenant Access

 Cross-Tenant Access Detected

This tenant has cross-tenant access partner settings configured.

CROSS-TENANT PARTNERS

3

B2B POLICY

Not Found

Cross-Tenant Access

Setting	Value
Cross-Tenant Access Policy	✓
Partner Count	3
Default Inbound MFA Accepted	N/A
Default Outbound MFA Accepted	N/A
Default B2B Direct Connect (Inbound)	Configured (details unavailable)

External Identities

Setting	Value
B2B Management Policy Present	N/A
Guest User Role	N/A
Invitations Allowed	N/A

What This Means

This section summarizes cross-tenant access policies and external identity settings for B2B collaboration.

Recommended Next Steps

Review partner access rules for least-privilege. Ensure B2B invitation policies align with your security requirements.

Secure Score

ENABLED SERVICES

20

Score Comparison

What This Means

Microsoft Secure Score measures your security posture. Higher scores indicate better protection against threats. Compare your score to similar organizations.

Recommended Next Steps

Review top improvement actions in the Microsoft 365 Security Center. Prioritize actions with the highest score impact. Aim for gradual improvement each quarter.
